

# Intensia Neon Pink

This Phlox hybrid will provide vibrant color spring through fall if you water and fertilize regularly. And it's low maintenance so you don't need to deadhead. It works well with other plants to fill in the middle ground as well as in containers and hanging baskets.

## Specifics:

- Annual Plant
- Likes Full Sun and Well-drained Soil
- Heat and Cold Tolerant
- Plant size: 10 - 18" with mounding habit
- Attracts butterflies and hummingbirds
