

Green Envy Coneflower

Produced summer to fall, the daisy-like flowers of 'Green Envy' are composed of purple based, green petals that surround a dark green and cinnamon-orange cone. They are borne freely and are fantastic for cutting.

Specifics:

- Perennial
- Full sun to light shade
- Blooms June through October
- Moderately drought tolerant
- Plant size: 2' with clump forming habit
- Prune to ground level in early April
- Attracts butterflies and is deer-resistant
